FOSCARINI

A variable number of arms with a white finish, as slender as the branches of a tree, support small coloured diffusers, whose shape is a reinterpretation of the classic shades. It's Birdie ceiling lamp, whose elements spontaneously coalesce to give life to a friendly lamp, that combines a smooth and familiar structure with a boldly character.

Unlike the Birdie ceiling lamp, the pendant one can suit different ceiling heights, thanks to an additional canopy and cable set. Because of balancing reasons, the suspended lamp

concerns the version with 6 or 9 arms, the ones endowed with the most scenic appeal and with the largest amount of lights, that light up like the flames of a modern chandelier.

Made with sturdy yet lightweight materials, always, Birdie has a different character depending on the colour: in white, it can be discreet and almost invisible, but in amaranth, orange or grey it becomes more of a prima donna capable playing the starring role in a room.
