FOSCARINI

The slim support like the trunk of a tree, its shade is a reinterpretation of the classic reading lamp, while the branch, as if ready for a "birdie" to alight, beckons your touch, turning it on or off. These three elements spontaneously coalesce to give life to a friendly lamp, that combines a smooth and familiar structure with a boldly character. Made with sturdy yet lightweight materials, Birdie has a different character depending on the colour of the diffuser: in white, can be discreet and almost invisible, but in amaranth, orange or grey it

becomes more of a prima donna capable playing the starring role of a room. The wall model expand the possibility of creating combinations of the various versions of the same collection, to co-ordinate the lighting of an entire room.

Birdie, wall technical info

FOSCARINI
