

Model: Icon Dimple Pop

Base and shell design: Sander Mulder, Upholstery: Kubikoff Lab

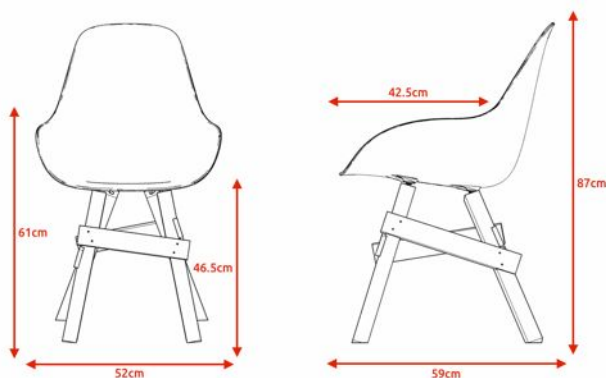

The **Dimple Pop** seat is made to be put to the test, and manages to combine high quality, and functionality, with a unique determination. "Pop" is lined entirely by hand, with attention to small details. The Pop shell is padded with a resistant and high resilient foam sg 45 kg/m³. The shell upholstery is in either leather or fabric, and can be easily removed. The lining is available in two versions: smooth, for a simple, classy look, or pleated, producing a result that is stylish, with a strong personality. With its extremely versatile style, Pop suits all tastes and all kinds of environments, and is resistant to intensive use.

The **Icon** base is so innovative, that it challenges the basic concept of a makeshift chair: the structure of ash wood, cut to look natural, consists of connections studied in detail, to create a sophisticated, functional design. What makes this chair look distinctive and unique is its wooden legs. The legs are made into wooden reality with CNC technology. Icon collection skillfully combines modern art with affordable yet durable materials to create perfectly balanced, functional furniture.

MEASURES:

Height:	87 cm
Width:	52 cm
Depth:	59 cm
Seat height:	46.5 cm
Seat depth:	42.5 cm
Arm height:	61 cm
