

## Lustre Light

A series of four stoneware pendant lights, handmade in a Dutch family-run factory.

**Process** Hand formed from stoneware, the iridescent sheen is created using a top-secret glaze containing minerals and precious metals.

This results in a totally unique and unrepeatable finish for each individual object. No two shades look the same because the glaze fixes to the stoneware in an unpredictable way. This produces a wide spectrum of colour across the series, ranging from a pale lime to a deep bottle green.

Please note colour examples are as accurate as photographic and publishing processes will allow, there may be further colour variations dependant on the settings of individual screens and printers
