

# Victoria Ghost Philippe Starck

This is a chair born of classic lines whose rounded backrest recalls the shape of antique medallions, whilst the seat is linear and geometric. Victoria Ghost is made of transparent, coloured polycarbonate and formed in a single injection mould. It is stable, comfortable, robust and weather resistant. Once more we find a chair created thanks to technological know-how which Kartell has amassed over the years to create articles which have made the company world renowned. It is an article with great charm and personality which fits elegantly into any style of surrounding.
