

Model: Diamond Dimple

Base design: Stolt Design Shell design: Sander Mulder

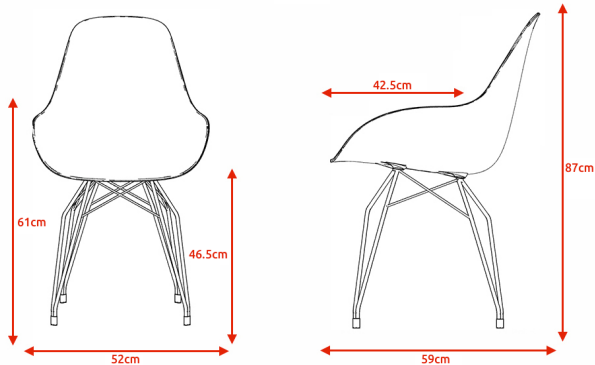

The **Dimple** seat's structural design was inspired by an eclectic mix of old, vintage race car seats and golf ball patterns. The union of the two concepts has created a comfortable and highly ergonomic body, with a modern, vibrant aesthetic.

The **Diamond** base is inspired by the facets of a cut diamond, creating a similar play of light. A simply sophisticated piece of furniture, perfect for modern and minimalist settings. The purity of the concept, and the high-quality design, combined with complex lines that create a light and luminous metal structure, creating a modern and sophisticated silhouette.
