Blob S, ceiling
## design Karim Rashid
2002

Sinuous, soft and familiar, the Blob S lamp
furnishes with a strong luminous appeal and
an irregular profile that recalls a natural shape.
Exploiting the expressive qualities of plastic
materials, the white moulded polyethylene
diffuser envelops the light source entirely and
emits a diffused and intense light.
Available in the indoor and outdoor versions,
as a table lamp, a wall lamp and a ceiling lamp,
it can be used alone or in multiple compositions
to achieve charming lighting scenes.

Blob S, ceiling

Karim Rashid

Karim Rashid was born in Cairo, Egypt; half-English, half Egyptian and raised mostly in Canada. He received a Bachelor of Industrial Design in 1982 from Carleton University in Ottawa, Canada. He pursued graduate design studies in Naples, Italy, with Ettore Sottsass and others, then moved to Milan for one year at the Rodolfo Bonetto Studio. He opened his own practice in New York City in 1993.
