

Gregg, suspension design Ludovica+Roberto Palomba 2007

FOSCARINI

A product of natural inspiration and extensive research, Gregg's shape is reminiscent of a large pebble, its surface polished by the water. It could even be seen as the egg of some mythological beast, a symbol of creation and re-birth. Pure volume with a familiar ease of interpretation, yet one that is surprising, because Gregg's asymmetric shape changes depending on the point of view of the person observing it. This is a new solution where a traditional material like glass becomes a tool in the designer's hands to give an original character to an environment.

There are three different sizes in the hanging, table, ceiling and wall versions and four different solutions for the floor lamp: the Gregg collection is one of the most versatile and transversal and can be easily placed in any type of setting. In the home environment the warm, uniform light produced by the white satined diffuser and its essential style have a strong functional and decorative value. Thanks to the closed shape of the diffuser, the bulb is screened in all directions, which protects from dazzle and makes it easy to place even at different heights.

When part of a composition, Gregg is suitable for some of the most surprising uses. A 'raindrop' structure highlights the vertical extension of a window or stairway, producing an extremely striking effect. Vertical arrangement of a multitude of suspensions at various heights generates spectacular luminous false ceilings. The repetition of the volume along a line produces new perspectives to create trompe l'oeil effect.

Gregg, suspension technical info

FOSCARINI

Description

Suspension lamp with diffused light. White satin finish hand-blown diffuser achieved using glass blowing procedure without turning the glass in the mould (referred to as "stationary"), subject to immersion in acid. The glass in the medium and large version is incorporated with a matt transparent injection moulded polycarbonate ring nut, which is in white polycarbonate in the small version. Matt transparent injection moulded polycarbonate lamp holder support. Stainless steel suspension cable and a transparent electrical cable. Ceiling rose with galvanised metal bracket and matt white batch-dyed ABS cover.

Canopy decentralisation kit – multiple canopy available (up to 6 or 9 suspension lamps).

Materials: blown satin glass

Colours: white

Brightness

diffused light

Model

Gregg small

Weight

net kg: 0,70
gross kg: 1,05

Packing

vol.m³: 0,011
n.bboxes: 1

Bulbs

– halogen energy saver 1x33W G9

Certifications

Gregg medium

Weight

net kg: 3,10
gross kg: 4,00

Packing

vol.m³: 0,050
n.bboxes: 2

Bulbs

– halogen energy saver 1x150W E27

– compact fluorescent 1x25W E27

Certifications

Gregg large

Weight

net kg: 5,60
gross kg: 8,10

Packing

vol.m³: 0,132
n.bboxes: 2

Bulbs

– halogen energy saver 1x205W E27

– compact fluorescent 1x30W E27

Gregg, suspension multiple composition

FOSCARINI

Description

A technical solution that couples function with design harmony: The multiple ceiling flange of Foscarini makes it possible to create compositions up to 9 suspension lamps to create cascades of light of high emotional impact, particularly suitable to enrich a stair case.

The standard multiple flange is designed to suit a large number of suspensions from both Foscarini and Diesel with Foscarini collections.

Materials: lacquered metal

Colours: white

Multiple canopy

Weight

net kg: 8,70
gross kg: 10,00

Packing

vol.m³: 0,03
n.boxes: 1

- Example with 6 suspensions
- Gregg small
