FOSCARINI

A simple curved band in blown glass, illustrating the profile of a soft volume that contains the light source.

This is Tutù: a wall lamp where the diffuser and mount are held together by a pin, a structure recalling a ballerina's chignon.

Its shape is asymmetrical with two parallel sides of different lengths. This makes the lamp even more versatile – it can be mounted with the longest side facing upwards or downwards. Tutù lets out a defined band of light upwards and downwards, and projects a warm light into the surrounding area through its diffuser.

## technical info

FOSCARINI

### Description

Wall lamp with indirect and diffused light. Hand-blown cased glass diffuser achieved using glass blowing procedure without turning the glass in the mould (referred to as "stationary"), white on the inside and coloured on the outside, glossy finish. Wall mounting plate housing the lighting technology part, made of aluminium colour epoxy powder coated die cast zamak. Brushed aluminium decorative glass support rods. The glass can be adjusted in two positions.

**Materials:** blown glass, metal and aluminium

**Colours:** white, ivory

### Brightness

indirect and diffused light
