

Twiggy, ceiling design Marc Sadler 2007

FOSCARINI

Foscarini and Marc Sadler's shared passion for research into new technologies has given rise to Twiggy, the iconic arched floor lamp which is available in an entire collection of lamps made of composite material on a lacquered fibreglass base. In the ceiling version, the diffuser support recalls the arched shape of the floor version. The support is secured in one point and can swivel by 360°: an excellent solution to decentralise the light point, guaranteeing maximum flexibility.

The diffuser guarantees direct lighting in the area underneath the lamp and – thanks to the transparency of the upper protection disk – diffuses efficient lighting by reflection. Available in four different colours, it can blend in seamlessly with any décor and style.

Twiggy, ceiling technical info

FOSCARINI

Description

Ceiling lamp with arm, with direct and indirect light. Diffuser and rod made of fibreglass-based composite material and liquid coated. Translucent polycarbonate upper diffuser disc, PMMA lower diffuser disc with polyprismatic internal surface. Epoxy powder coated metal round ceiling rose. Supplied with 4 counterweights to be inserted in the purpose-provided seat above the diffuser to adjust its height. The arm is adjustable 360°, the length of the rod cannot be modified.

Materials: compound material on lacquered glass fibre base, polycarbonate and PMMA

Colours: white, black, yellow, red

Brightness

direct / indirect light

Weight

net kg: 6,60
gross kg: 10,10

Packing

vol.m³: 0,258
n.boxes: 2

Bulbs

– halogen energy saver 3x77W E27

– compact fluorescent 3x20W E27

rotating 360°
stem length cannot be fixed
