Cosmic Angel sospensione - Hqi

DESIGN BY :

RossLovegrove
2009

MATERIALS :

Die-cast aluminium, thermoplastic

DESCRIPTION :

"My concept way to freeze a moment that seemed to be created by air rolling over a thin sheet , achieving a very natural flow and rhythm in the lightweight sculptural skin. Ultimately it appears to be suspended in anti gravity on a cushion of air....like the cosmos in the complex forms and geometries that seem to defy explanation and create a sense of infinity." Materials: body lamp-reflector made of thermoplastic material; die-cast aluminium lighting units.
