P/blue	

Material

Frame: Painted aluminium or polished

Seat and back: Fabric covered polyurethane

The new family of Audrey chairs adds a fabric version. A versatile contemporary chair of clean, simple lines achieved through a special aluminium die-casting process is composed of only two parts without visible welding. Audrey Soft offers a wide range of combinations thanks to four variations of the structure (polished aluminium, painted white, painted black, painted aluminium), with and without arms, and three different types of fabric (Kvadrat, Trevira and Lycra) available in 24 colours for a total of about 200 combinations. Eclectic in its uses, Audrey Soft is perfect for the home, the office and contract.
